Profile

Junior Security Analyst with solid foundation in Offensive & Defensive Security Techniques and Programming Languages, Good Knowledge in Logs Analysis, Traffic analysis with Wireshark, Digital Forensics, also Web Application Security (OWASP Top Ten), I am eager to apply my academic knowledge to real-world applications, where I can contribute to safeguarding digital assets and maintaining the integrity systems of organizations.

Projects

Incident Response Project

Self-Project

Analysis is performed based on Cyber Kill Chain Model using Splunk SIEM Solution with "botsv1" dataset.

Project Objective is performing analysis as Blue Team Member Using Splunk as SIEM Solution for Incident Response by utilizing Splunk and all the data that it ingested which consist of Windows event logs, Sysmon logs, Fortinet next-generation firewall logs, Suricata logs.

Education

2017 – 2023

Bachelor - Management Information Systems

Sudan University of Science and Technology

GPA 3.18 [Honor Roll Student]

Courses

CCNA

Network Plus Training Center

Microsoft MCSE (Windows Server 2016)

Network Plus Training Center

Security+ (601)

Netriders Academy

eLearnSecurity Junior Penteration Tester (eJPT)

Netriders Academy

eLearnSecurity Certified Incident Responder

Netriders Academy

Skills

Security

Incident Response Processes and Methodologies.
Network Packet/Traffic Analysis with Wireshark.
Event & Log Analysis Using Splunk (SIEM) Searches.
Web Application Pentesting.
Vulnerability Assessment with Nessus.

Operating Systems

Linux
Windows

Programming

Python
Bash Script
Javascript
